MURDERS IN LONDON

Police May Be Called on to Fight Another Murderous Gang

London, Jan. 5.—Another element of mystery developed today in the investigation of the death of Joseph Beron, whose mutilated body was found on Clapham Common last Sunday. The murder is attributed by the police to the Hounds Ditch anarchist-burglar gang, two members of which were killed in the raid on their den the other day.

On each check of Beron's body was cut the letter "S". The police declare this deliberate cutting is obviously symbolic of a secret society. They never had seen anything of the sort before.

The inquest was adjourned to July 20. The police accept the theory that Beron was killed by the members of an organization who left the sign of their order on the body of the victim.

The police are not satisfied that Peter the Painter was one of the two men killed in the Sydney street battle and are now working on the theory that he is alive and still at large. Throughout the night two hundred armed officers scoured the East End, and a spectacular fight is feared should the fugitive be cornered.

LONDON, Jan. 4.—After a day's reflection the sober thought of London appears to be that the marshaling of a great force of police and military to destroy a little nest of outlaws was a mistake. A number of provincial papers, too, criticize the authorities sharply.

The Manchester Dispatch today says that Englishmen have been made to appear ridiculous and that the affair is one which the country will be glad to forget.

Nothing has since developed to establish that more than two men held the tenement against several hundred police, two and a half companies of Scots Guards from the Tower of London, a detachment of horse artillery, with two machine guns and a Gatling gun and fire brigade, to say nothing of tens of thousands who lent their moral support expressed in vociferous cheers.

It was reported that during the night the police had discovered the body of the man in the ruins, but this is not true. Only two men are known to have been killed.

The extent of the popular excitement aroused by the exhibition will be better understood in the light of the fact that the circulation of the local newspapers of last evening and this morning were greater than at any previous time since the critical stages of the Boer war were heralded in the capital. Surprising as it may seem, the papers sold far exceeded the number disposed of on the day of King Edward's death.

CANNED SALMON HAS UNPRECEDENTED DEMAND.
Chicago, Jan. 5.—Canned salmon is in greater demand than at any corresponding period in the memory of men now engaged in the wholesale grocery business in Chicago, said a well known local canned goods man yesterday in commenting on the unusual conditions at this season of the year.

"Inquiries," he continued, "are coming to Chicago jobbers from all over the country from other jobbers, who are writing here and there with a view to picking up an odd lot or two to cover their immediate needs. Such a state of affairs is unprecedented for this season of the year, when the market is usually well supplied with canned salmon. In fact, in effect, this decision was rendered yesterday by Judge Niles in the United States district court.

In the suit at issue, Mrs. Annie Rogers, whose husband was lynched at Tallulah, La., a serial robber, sought the recovery of \$50,000 from the Vicksburg, Shreveport & Pacific railroad. In her petition, Mrs. Rogers held that the railroad company was liable for damages, because they furnished a train which transported the mob from Monroe, La., to Tallulah.

Rogers was charged with killing Jesse Brown, a planter of Girard, La. Both men were prominent.

MISSOURI COMMISSION WANTS MORE POWER.
Jefferson City, Jan. 5.—H. R. Oglesby, a member of the board of railroad commissioners, yesterday issued a statement in which he outlined bills the board will ask the legislature to pass at this session. These give the commissioners more power in regulation of the railroads. Among these bills are the following:

To give the commission power over express companies to prevent charges in excess of printed tariffs and to give cities of a certain class free delivery.

To prevent railroads and express companies from holding claims an unreasonable length of time.

To prevent railroad companies from delaying freight an unreasonable length of time in transit.

For the weighing of coal by the railroads at the destination to prevent the shortage on shipments of coal in open cars.

In his statement Mr. Oglesby says he believes the legislature will increase the powers of the commission.

NOT RESPONSIBLE FOR MOB ON TRAIN
Vicksburg, Miss., Jan. 5.—Because a railroad company furnishes a special train to a party of men and it is used to convey a mob bent on lynching, the railroad company cannot be held liable for damages. In effect, this decision was rendered yesterday by Judge Niles in the United States district court.

In the suit at issue, Mrs. Annie Rogers, whose husband was lynched at Tallulah, La., a serial robber, sought the recovery of \$50,000 from the Vicksburg, Shreveport & Pacific railroad. In her petition, Mrs. Rogers held that the railroad company was liable for damages, because they furnished a train which transported the mob from Monroe, La., to Tallulah.

DISPUTE OVER TITLE TO LAND
Judge Howell this afternoon is hearing the case of Sarah E. Binford against David Eccles, which has been instituted for the purpose of quieting title to certain real estate in this city.

The property in dispute is about two feet of ground now occupied by the west wall of the Armory building on Twenty-fourth street, between Grant and Lincoln avenues.

Mrs. Binford claims that when Mr. Eccles purchased the property upon which the Armory has since been built, that a certain fence marked the dividing line between that property and land owned to the west of it by her, but that, disregarding the established landmark, the defendant built two feet westward from it. The strip of ground is about 130 feet long.

SHERIFF HAS NAMED A BAILIFF
Sheriff Harrison, at 2 o'clock this afternoon, assigned the duty of attending court to Deputy Sheriff Walter Rieber, who appeared in the courtroom for duty. The acts which were exercised, however, by A. L. Toome, "Court Attendant and Custodian of the Weber County Library," by appointment of the county commission.

The sheriff states that one of his deputies will be assigned to this duty each day that the court is in session whether the court uses the officer or not. This is being done by the sheriff in fulfillment of his duty as prescribed by the state law which reads:

"The sheriff shall attend, in person or by deputy, all courts organized under the laws of the state, except justices and police courts, held within his county, and obey their lawful orders and directions."

This means that there will be two officers in attendance upon the second district court and that both will draw salaries. There is not enough work to be done in the court to occupy one man, but the county commissioners have authorized the additional expenditure.

Sheriff Harrison says his deputy will be in readiness at all times to do the things required by the court and that he needs no assistance.

When the deputy appeared in the courtroom this afternoon he made no effort to assume the duties of bailiff, but merely placed himself in readiness to receive instructions from the court, but the court ignored him.

Battling Nelson, James Fleming Carroll and Frank Ernie, as well as Dal Hawkins, were great lightweights and will always be part of the history of pugilism. Soldier Sam Smith, were some tough featherweights, and Young Griffo, probably the cleverest man with his hands that class ever produced.

Yet they were not George Dixon, Monte Attell and Cassius Leonard were good bantams, but Jimmy Barry outclassed them. This at least is my opinion of the different fighters, every one of which I have seen in championship battles.

NO CRIME TO STEAL UMBRELLA ON RAINY DAY.
Patterson, N. J., Jan. 5.—It is no crime to steal an umbrella on a rainy day, according to a decision by Recorder Carroll of this city. Robert McCauley of Philadelphia was tried for taking an umbrella from a hotel in Tuesday's rainstorm. The recorder dismissed the case and the defendant, thanked him, adding that he was glad to know that Jersey law was so sound.

SALE OF OREGON PINE.
San Francisco, Jan. 5.—A dispatch from Klamath Falls, Oregon, says a dispatch from the president of Pennsylvania has sold his sugarpine holdings in that district to an eastern syndicate at a price of \$3,000,000. The timber covers some 100,000 acres on the California-Oregon border.

Chicago, Jan. 5.—Another name was added to the death roll of the garment workers' strike yesterday when Sarah Gibbs, a 19-year-old striker, died at a hospital as a result of cold and exposure during her service as a strike picket and as a news girl for the benefit of the strikers. The strikers' relief committee will pay the expenses of her funeral, and 5,000 strikers are expected to follow her body to the grave tomorrow.

The Last Straw.
An attendant at a Kansas institute for the deaf and dumb was undergoing a pointless routine inspection at the hands of a female visitor. "But how do you suppose these poor mutes to church?" she asked, finally, with what was meant to be a pitying glance at the inmates near by. By pinning the dumbbells, meantime, she had infuriated the attendant. Judge.

OLD CASE IS NOW IN HANDS OF JURY
The time of the district court and a jury was taken up this forenoon in hearing the case of the Utah & Oregon Lumber company against W. M. Hostaph and Peter S. Wilson, the matter being submitted to the jury at the noon hour.

The plaintiff commenced the suit to recover \$639.74 alleged to be due on account. The account is stated to have been rendered November 1, 1908, and that from that time until November 10, of the same year, the defendants purchased lumber and cement in the sum above stated, the same not having been paid for.

The complaint also alleges that at the same time the debt was contracted the defendants were operating as partners in the building of concrete sidewalks and doing other contract work together.

The defendant Hostaph states in his answer that he has nothing of the bill alleged to have been contracted with the plaintiff company and that at the time it is said to have accrued the partnership between himself and Wilson had been dissolved. Both sides introduced testimony in support of their contentions.

The jury called to try the case are William P. Fuller, Thomas W. Peterson, Joseph Bidwell, James S. McBeth, W. G. Kind, Chester P. Nelson and Joseph Streng.

THEY WERE HELD IN AN ELEVATOR
New York, Jan. 5.—Six women and ten men were liberated from an elevator cage by the police shortly before midnight after they had spent four hours imprisoned between the twelfth and thirteenth floors of a business building.

The car was jammed to its full capacity and for the whole time the prisoners were unable to change their positions or relieve aching muscles.

The top of the metal cage was ripped off with fire axes, and the sixteen weary passengers hauled out to tramp down thirteen flights of stairs to the street.

PLAN THE DEVELOPMENT OF NORTHERN AUSTRALIA
Washington, Jan. 5.—Plans have been set afoot in Australia for the development of a large portion of the island continent which is now little more than a wilderness. According to consular reports, the parliament of the commonwealth has passed a bill accepting from the state of South Australia the territory of Northern Australia. This acceptance will mean the connection by railway of Port Darwin, the port of the Northern Territory, with the rail system of South Australia, involving an expenditure of about \$20,000,000.

In Northern Australia, there is but a scant population. The territory comprises 523,520 square miles and has only about 5,000 inhabitants, of which two-thirds are Aborigines. Rail development will be followed, it is expected, by the exploitation of the resources of the territory that now is dormant. The territory is rolled upon as a fine field for the production of rubber, the recent phenomenal advances in the prices of that commodity causing those interested in its production to take advantage of any region promising a profitable yield.

It is said that the only drawback the country offers to rubber culture is the fear of white ants, which are a terrible scourge, and to come with which some means must be found. Buffalo farming also, it is said, will form one of the pursuits of the territory. About 5,000 hides of those animals are now exported yearly from Port Darwin.

APPLICANTS FOR PAROLE.
Atlanta, Ga., Jan. 5.—The parole board of the Atlanta prison will begin its first regular meeting here today. More than 125 cases are to be considered. A special session of the board was held a month ago when more than 225 applications for parole were considered. No information is obtainable relative to the number reported favorably, but this far only eight applicants have been paroled.

Probably True.
First Sportsman—I wonder you ride a brute like that at your time of life.

Second Ditty—Keeps one young, don't you know.

First Ditty—I hope to prevent your getting old, anyway.—Punch.

GIRLS WITH SHAPELY TOES
The young ladies of Riverdale will give a "shadow and toe" dance at the Riverdale Amusement hall, the evening of January 13. Prizes will be offered for the nicest and for the oddest looking couple.
In the "shadow and toe" dance, the young ladies are concealed behind a screen with only their toes exposed to view. The young gallant must select his partner by the toes. He may get his choice or he may get the homeliest girl in the hall. The uncertainty adds interest to the dance.

HORSESHOEING WAGONS FOR NEW YORK.
New York, Jan. 5.—Ten horseshoeing wagons which are now on the way to New York will save the fire department \$30,000 a year. The wagons will go from one fire house to another, attending to the work formerly done outside the department. The fire commissioner has appointed fourteen blacksmiths and the same number of assistants to man the wagons.

DERELICT BALLOON SEEN IN SWEDEN
Berlin, Jan. 5.—A news dispatch from Copenhagen reports that a balloon, supposed to be the German Hildebrandt, missing since Dec. 29th, passed over Hooznos, Sweden, last night. No passengers were visible.

MAY HAVE BEEN CECIL GRACE'S
Brussels, Belgium, Jan. 5.—The Aero Club today received a dispatch from the president of the Ostend Aero Club, stating that an aviator's cap and glasses, probably those worn by Cecil Grace, supposed to have been lost in the North Sea, had been picked up at sea off Marlerke, on the Belgian coast.

SPANISH TROOPS ON PORTUGAL'S FRONTIER; KING ALFONSO PLANNING ANNEXATION
MADRID, Jan. 4.—The latest report concerning the future of Portugal is to the effect that Spanish troops have been massed on the frontier, with a view to the annexation of Portugal to Spain in case the new republican government officials get to quarrelling among themselves or in case the monarchial adherents still remaining in Portugal rise against the republic. The king of Spain lost so much territory during the past twelve years that he is said to be ambitious to enlarge his possessions.
